

SENIORS WHO REVIEW THEIR MEDICARE COVERAGE CAN SAVE THOUSANDS OF DOLLARS!

In 2019, two of our clients each saved more than \$70,000 each, and our average client saved \$2,200!

Medicare plans change each year. Help your clients tune up their coverage and **Save Thousands!**

Each year, Medicare Advantage or Part D drug plans can make significant changes for coming year—the medications they cover, how much you'll pay for each drug, pharmacy networks, provider networks, out-of-pocket costs, deductibles and more. As a result, it's critical that clients review their plan options before Dec. 7th.

Not doing so can be the difference of thousands of dollars!

Now giving your clients the unbiased, expert Medicare plan recommendations they need is easy with an Open Enrollment Medicare Tune-Up™ service through i65 and 65 Incorporated.

Choose How to Provide Your Clients With A Tune-Up:

- » **We do it.** You or your client can call us at (262) 240-9860 or visit www.65incorporated.com/open-enrollment. After filling out a simple form that provides us with some basic information, we get to work identifying the best plans for your client's unique needs. We send the final report directly to your client.
- » **You do it.** (*But, we really do it for you!*) Begin by choosing the business model that works best for you. You can pay for the service directly and charge the fee you feel is appropriate (making money or breaking even), or you could provide the Tune-Up as a value-add service. Either way, we send the report to you and you deliver the report to the client, effectively making you the hero for any savings.
